3. INTRODUCTION

Background to the Problem

There is limited availability and accessibility of books in Bangladesh. Book lovers in the country faced numerous challenges in finding and purchasing the books they desired. Physical bookstores in Bangladesh had limited stock and were often concentrated in major cities, making it difficult for people in remote areas to access a wide range of books. This geographical limitation created a disparity in book availability, hindering individuals from exploring various genres and expanding their knowledge.

Additionally, the traditional book-buying process was time-consuming and required individuals to physically visit different stores to find specific titles. This inconvenience discouraged many potential readers and restricted their access to a diverse range of literature. Furthermore, the lack of trust and confidence in online shopping posed a significant barrier to the growth of the online book market in Bangladesh. People were hesitant to make online purchases due to concerns about the security of their personal and financial information, as well as uncertainties regarding the quality and authenticity of products

Solution to the problem

Recognizing these problems, Rokomari.com was established with the goal of revolutionizing the book-buying experience in Bangladesh. By offering a vast collection of books and making them easily accessible through an online platform, Rokomari.com aimed to bridge the gap between readers and books, regardless of their location. They also aimed to build trust and confidence in online shopping by ensuring secure transactions and providing genuine products. Rokomari.com aimed to address included limited book availability, restricted access to diverse literature, and the lack of trust in online shopping within Bangladesh. It offers a wide range of books, including both local and international titles, covering various genres and categories. The platform operates by connecting customers with sellers and facilitating the buying and selling of books online. The platform features detailed listings for each book, including its title, author, publication information, price, and availability. Customers can add books to their cart and proceed to the checkout process. They can choose from various payment methods, including cash on delivery, debit/credit card, mobile banking, or online payment gateways. Rokomari.com ensures secure payment transactions to protect customer information. They have a reliable logistics network to ensure timely and safe delivery across Bangladesh.

4. REQUIREMENT SPECIFICATION

4.1 System Features

1. System Login:

- 1.1. User should have the opportunity to buy products without login to comfortably.
- 1.2. User should have to log in by google account or Facebook account.
- 1.3. If the username and/or password is incorrect, logging in using a one-time password (OTP) will be available.

Priority Level: High

Precondition: The user must have an account.

- 1.4. The software shall allow users to log in or register using their username and password.
- 1.5. User should have the opportunity to rearrange the password when they forget.

2. Product Tracing and pick-up point:

- 2.1. User should track the product status.
- 2.2. User should choose the pick-up point.

Priority Level: Medium

Precondition: User must have a valid account and order a product

3. Review Product:

- 3.1. User should verify product and give review.

Priority Level: Medium

Precondition: User must be logged in to Rokomari.com account.

4. Order History:

- 4.1. User will be able to check order history from my order.
- 4.2. User can be able to cancel order.
- 4.3. User can be able to return product.

4.4. User can be check order status including processing and shipment.

Priority Level: Medium

Precondition: User must be logged in to Rokomari.com account.

5. Logout:

5.1. User must login/sign in the website

5.2. Click the sign out icon.

Priority Level: High

Precondition: User must be logged in to Rokomari.com website.

6. Chat:

6.1. User can question about their product and other issues to the support team.

Priority Level: Medium

Precondition: User must be logged in to Rokomai.com.

7. Following Author:

7.1. User can follow author from author icon.

7.2. User can order books by choosing author.

Priority Level: Medium

Precondition: User must be logged in to Rokomai.com.

9. Order History:

9.1. User should be able to cancel the order list.

9.2. In the order list user can see when he orders.

9.3. User can check whether he paid for the product or not.

9.4. The user will be able to see the order history from the order list.

Priority Level: Medium

Precondition: User must be logged in to Rokomari account

10. Valid payment method:

10.1. User can pay from mobile banking by Nagad,,Bkash ,Rocket or cash on delivery

10.2. User should know about the valid and invalid card number

Priority Level: High

Precondition: User must be logged in to Rokomari account and pay the bill.

4.2 SYSTEM QUALITY ATTRIBUTES

Usability:

Assuming Users with little or no education can use the system, it must be intuitive. After receiving adequate training, they should be able to navigate the website to various areas in the shortest time possible, and the system should not lead the user astray.

Efficiency:

The system must support multiple concurrent user sessions and a large number of users.

Interoperability:

As each payment gateway offers a payment option, the system must interact with a number of them.

Reliability:

In the event of a system malfunction, users should be able to retrieve their resumes and other information from the system, making it reliable.

Reusability:

The vast majority of development sectors employ generic libraries or modules as effective and time-saving development strategies. If the system is modular, both the individual modules and the system as a whole can be used.

Performance:

It is based on how long the system needs to finish a particular task. For instance, the system should make optimal use of the CPU, RAM, and disk space.

Portability:

The ability to transfer a program or its components from one computing platform to another allows for greater flexibility and adaptability in the workplace.

5. FEATURES NOT TO BE TESTED

The areas that won't be specifically discussed are listed below. As a result of other testing initiatives, all testing in these areas will be indirect. For example:

1. Using Reassigned Sales data, spreadsheet analytic programs for personal computers. Considering that these applications are not a part of this project and are entirely under the customer's control. Customers will be given the essential data base format information so they may extract data. The application developer or maintainer is responsible for testing their applications.
2. The testing concerns connected to the database cannot be effectively tested. However, we do not possess ownership of this application and our testing approach is focused on black-box testing.

6. TESTING APPROACH

6.1 Testing Levels

1. The testing procedure for ROKOMARI will exclusively involve System testing. The absence of the project's source code precludes the execution of both Unit testing and Integration testing. Furthermore, as a result of temporal limitations, it is not feasible to assemble consumers for the purpose of conducting Acceptance testing. Therefore, the exclusive execution of System testing will be carried out by a specialized team of testers.
2. The term "system" refers to a set of interconnected components or elements that work together to achieve a specific purpose or function. The testing will be conducted by a dedicated team of testers. Upon the completion of the project Prior to the launch of the product, a thorough and integrated testing process was conducted to identify any potential weaknesses in the system's external interface. The examination will be conducted utilizing automated testing methodologies. The team intends to arrange a meeting to discuss the comprehensive testing strategy, allocate the test cases, and thereafter carry out the test cases and present the outcomes.

6.2 Test Tools

The exclusive test tools to be utilized encompass the conventional AS/400 utilities and commands that are readily available.

1. Selenium IDE: The Selenium IDE application captures and stores several locators for each element it interacts with. In the event of a failure of a certain locator during the playback process, other locators will be attempted sequentially until a successful one is found. The chrome extension version was utilized to fulfill our objective.
2. Chrome driver: The extensibility of Selenium IDE is facilitated by the incorporation of plugins. The extension was installed in order to conduct our test on the Chrome browser.

6.3 Meetings

The meetings were held over a period of five days. The following is a synopsis of each of the meetings.

DATE	TIME
21/8/2023	7-10 PM
22/08/2023	7-10 PM
23/08/2023	7-10 PM
24/08/2023	7-10 PM
25/08/2023	7-10 PM

Figure 5: Increasing number in the chart

The screenshot shows a shopping cart interface. At the top left is a checkbox labeled "Select All (16 Items)". To the right, it says "Rifat, your total: 3,747 Tk.". Below this, a product card for "M32 TWS Bluetooth Earphones Mini Microphone Waterproof Sports Bluetooth Earbuds - Bluetooth Headphone Non-Brand" is displayed. The product image shows two earbuds and their charging case. To the right of the product details is a quantity selector with buttons for minus, three, and plus, currently set to 3. The price "3297 Tk." is shown next to the quantity. At the bottom of the card are icons for trash ("Delete") and a heart ("Wishlist"). On the right side of the screen, there is a sidebar with five promotional icons: "Cash on Delivery Available", "7 Days Replacement Policy", "100% Money Back Guarantee", "Purchase & Earn Points", and "100% Original Product".

Figure 15: Check rokomari point test results.

The screenshot shows the rokomari.com checkout process. At the top, there's a header with the rokomari logo, a search bar, and a user profile with a notification badge (15). The main area has two main sections:

- Shipping Address:** A table showing a selected address: "Name: Rifat hasan, Phone: 8801757624454, East delpara,Kutubpur,Fatullah, Narayanganj, কলামার্জি ইত্তিমুন, কেটালীগাঁও, গোপালগঞ্জ, বাংলাদেশ". Buttons for "Edit" and "Delete" are shown, along with a "+ Add New Address" button.
- Checkout Summary:** A table showing the total cost: Subtotal 450 TK, Shipping (Changeable) 57 TK, Total 507 TK. It also includes a "Gift Wrap for Tk. 20" checkbox and a "Add Promo code or voucher" section with a coupon input field and an "Apply" button. A message "You are saving 0%" is displayed.

Figure 21: Searching products test results.

The screenshot shows the Rokomari website interface. At the top, there's a navigation bar with links like 'All', 'Watch', a search bar, a bell icon, a shopping cart icon with '15' items, and a user profile 'Rifat hasan'. Below the navigation is a horizontal menu in Bengali: 'বই', 'ইলেক্ট্রনিক্স', 'মনিহারি পণ্য', 'কিডস জোন', 'পিফট ফাইভার', 'প্রাতিষ্ঠানিক অর্ডার', 'অফার সমূহ', 'বুইজ', 'ব্লগ', 'বেবেক', 'বিদ্যুৎ', 'প্রকাশনী', 'ই-বুক', 'Buy 1 Get 1 Offer', 'স্টকের প্রোডাক্ট সমূহ', 'এইচএসি বই', 'বইমেলা ২০২৩', 'নতুন পণ্যসমূহ', and 'ইসলামি বই'.

The main content area displays a grid of products under the heading 'Search By Types' with a 'All' selected. It includes filters for 'Sort' (Best Seller, New Released, Price - Low to High, Price - High to Low, Discount - Low to High, Discount - High to Low) and 'In Stock' (checkbox). A 'Filter' section allows searching by 'Authors'.

The product grid shows several items:

- Book:** 'বাণিজ্যের আজ ধারার বিকাশ' (Original) - 11% OFF, TK. 2,150.
- Watches:**
 - Olevs watch OLEVS - TK. 1,978.
 - Storm Watch - TK. 4,145.
 - Dizo Watch 2 smart Watch - Silver - Dizo - TK. 4,299.
 - SKMEI 9170 Black Men's Watch - SKMEI - Product In Stock - TK. 2,000.
 - LIGE Mens quartz casual watch chronograph watch waterproof best leather watch - LIGE Watch - TK. 1,208.
 - Amazfit NEO Smart Watch - Black - TK. 3,890.
 - Dizo Watch 2 smart Watch - Golden Pink - Dizo - TK. 4,299.
 - Dizo Watch D Talk Smart Watch - Black - Dizo - TK. 5,599.
 - Dizo Watch 2 Sports Smart Watch - Ocean Blue - Dizo - TK. 3,799.

On the right side of the grid, there are buttons for 'TK. 450' and 'Wishlist'.

The screenshot shows the Rokomari website homepage. At the top, there is a search bar labeled "Search by publishers (হস্তা)" and a user profile icon for "Rabbi Hasan". Below the header, there are several navigation links: বই (Books), ইলেক্ট্রনিক্স (Electronics), মনিহারি পণ্য (Munihihari Products), কিডস জোন (Kids Zone), পিফট ফাইভার (Pifte Fivefiber), প্রাতিষ্ঠানিক অর্ডার (Corporate Order), অফার সমূহ (Offers), কুইজ (Quiz), and ব্লগ (Blog). There are also dropdown menus for মেথক (Method), বিষয় (Subject), ধর্মাবলী (Religious Texts), ই-বুক (eBook), Buy 1 Get 1 Offer, স্টকের প্রোডাক্ট সমূহ (Stock Product), এইচএসসি বই (HSC Books), বইমো৳ ২০২০ (Books 2020), নতুন গাঁথসমূহ (New Books), and ইসলামি বই (Islamic Books).

The main banner features a large "50% ছাড়! রকমারি বেস্টসেলার ই-বুকে!" (50% OFF! Rokomari Bestseller eBooks!) offer. Below the banner, a section titled "Reel of Deal" shows various discounted items: Tiffin Plus Shahi Malai Value Pack - Malai - 1042 (৳200), Tetley Green Tea Masala (37.5gm, 25 Tea Bags) - TTA6 (৳150 → ৳140 7% OFF), Fevicryl Acrylic Color-Sunflower Kit - 150 ml (15ml bottles of 10 shades) (৳385 → ৳327 13% OFF), Lasika Digital Water Resistant Sport Watch (৳450 → ৳320 29% OFF), and Lasika Digital Water Resistant Sport Watch - W-H9039 (৳450 → ৳320 29% OFF).

Figure 55: Compare two products

The screenshot shows the Rokomari.com website interface. At the top, there is a search bar labeled "Search by Authors (গাজী আজমল, মোহ)" and a navigation menu with links like "বই", "ইলেক্ট্রনিক্স", "মনিহারি পণ্য", etc. On the right side of the header, there are icons for a shopping cart (with 2 items), a notification bell, and a user profile for "Rabbi Hasan". Below the header, there are more navigation links: "লেখক", "বিষয়", "প্রকাশনী", "ই-বুক", "Buy 1 Get 1 Offer", "স্টকের প্রোডাক্ট সমূহ", "এইচএসপি বই", "বইমেলা ২০২০", "নতুন পণ্যসমূহ", and "ইসলামি বই". The main content area displays a comparison table for two products:

Name	Adata UV 150 USB 3.2 Black 32GB	Lexar JumpDrive M35 64GB USB 3.0 Silver Flash Drive
Price	Tk. 550	Tk. 820
Brand	Adata	Lexar
Ratings & Reviews	7 Ratings / 6 Reviews	0 Ratings / 0 Reviews
Warranty Period		Lifetime
Access Time Read	Up to 100 MB/s read	
Operating Temperature		0° C to 60° C (32° F to 140° F)
USB Type	Type-A	

Each product row has "Remove" and "Add To Cart" buttons below it. There is also an "Add Product" button and a search bar at the top right of the table.

Post Condition: Need to registration or login				

The screenshot shows a test management interface for a project named "Rokomari". On the left, there is a sidebar with a list of test cases, some of which are marked with a red "X" indicating they are failed. The main area displays a table of test steps with columns for Command, Target, and Value.

Command	Target	Value
✓ open	https://www.rokomari.com/cart	
✓ set window size	788x816	
✓ click	css=col-8	
✓ run script	window.scrollTo(0,500)	
✓ click	css=#js-continue-to-shipping > span	
✓ click	css=align-items-start nth-child(1)	

At the bottom of the interface, there are tabs for "Log" and "Reference", and a status message: "'Place order with login' completed successfully".

Figure 79: Place order with login

The screenshot shows the Rokomari website's checkout interface. At the top, there is a navigation bar with the Rokomari logo, search bars for authors and categories, and user account information. Below the navigation, the main content area is divided into several sections:

- Shipping Address:** A form for selecting a shipping address, with one entry pre-filled: "Name: Rifat hasan, Phone: 8801757624454, East delpara,Kutubpur,Fatullah, Narayanganj, কল্পবাজার ইউনিয়ন, কেটচারীপাড়া, পৌরসভাপত্তি, বাংলাদেশ". Buttons for "Edit" and "Delete" are visible.
- Add New Address:** A button to add a new shipping address.
- Happy Return (7 days return facility):** A note indicating a 7-day return policy.
- Payment Method:** A section for selecting a payment method, listing five options: "Cash on delivery", "Pay by Nagad", "Pay by bKash", "Pay by Card", and "Pay by Rocket".
- Checkout Summary:** A table showing the total cost breakdown:

Subtotal	450 TK.
Shipping (Changeable)	57 TK.
Total	507 TK.
Payable Total	507 TK.
- Gift Wrap for Tk. 20:** An option to add gift wrapping.
- Add Promo code or voucher:** A field to enter a coupon code with an "Apply" button.
- You are saving 0%:** A message indicating no savings.

তাসরিফ খান

আমার জন্ম ১৯৯৪ সালের জুন মাসে। চার ভাইয়ের মধ্যে আমি তৃতীয়। বাবা ছিলেন স্কুল শিক্ষক আর মা শুভেঙ্গী। মেরেকোনায় নিজে এলাকার অধিবেশনে গৱাঞ্জে হুটেছিটি আর খেলাধুলাটোই কেটেছে আমার শৈশব-ক্ষেপণের সময়টা। ছেটবেলা থেকেই গড়াশোনায় আমি খুব একটা মনোযোগী ছিলাম না। ইচ্ছে ছিলো অভিন্ন করবো, নয়তো খেলেয়াড় বিহু গায়ক হবো। তাই গড়াশোনায় খুব একটা তালো ফলাফল কর্তৃতৈরি করতে পারতাম না। কোনোরকম উচ্চমাধ্যমিক শেষ করে ঢাকায় এসে গড়াশোনা শুরু করি একটি বেসরকারি বিশ্ববিদ্যালয়ে। পিছে বিদ্যালয়ে পড়ার সময়টাটেই পুরোদণ্ড... 8. ITEM PASS/FAIL CRITERIA

Recommendations will be provided once all test cases have been successfully executed. The decisions regarding the study will be made by the principal investigator based on the findings of the experiment. The deletion of the software foundation cannot be undertaken until the identification and resolution of all existing defects inside it. Upon the release of the finished program, it is inevitable that certain flaws or errors may persist within the system. The decision on the release of the application and the determination of the test numbers that will be considered successful will be made by the test leader and project manager in a subsequent manner. The responsibility for the task lies solely with the project manager and the test lead. In this illustrative instance, it is proposed that the gadget be eliminated if a minimum of 90% of the test cases are effectively completed during the test session.

9. TESTING SCHEDULE
